DIGITAL SKILLS: USER EXPERIENCE

Wireframing

Fenohery Fanomezanirina

Design-First AgriTech Founder | UX/UI & No-Code Expert | AI Integration | Empowering Seamless Digital Solutions for Agriculture Madagascar

Summary

Product designer, no-code developer, I help you achieve your goals with my digital experiences.

Expand your business by hiring me to manage your project, in no time I can help you get an idea on the goto market in any subject.

My experiences with Figma can give you a complete, manipulable prototype, then you'll have the same pixel-perfect experiences in online production with webflow or framer, even with wordpress, and Flutterflow if you want to have a mobile app.

Let's get in touch to realize that idea you've been wanting to flesh out.

Experience

Fataplus

Founder & CEO | Design-First AgriTech Innovator | UX/UI, No-Code & AI Integration Specialist

September 2023 - Present (2 years 5 months)

Madagascar

As Founder & CEO of Fataplus, I specialize in design-driven innovation for agriculture and business. My process begins with UX research and ideation, then moves through Figma prototyping and robust design systems, culminating in intuitive, accessible solutions built on no-code platforms like Webflow, WordPress, Framer, and Cloudron for Self-hosting my one-click install app. I integrate AI and APIs to automate workflows and deliver truly seamless user experiences.

Fataplus is my vision for empowering agricultural communities—removing barriers to technology, enabling farmers, and driving sustainable impact. I'm passionate about making digital transformation simple, human-centered, and scalable.

Let's connect to collaborate or discuss how purposeful design and technology can unlock new opportunities in AgriTech and beyond.
